CILVER, PAGE & BOTTS,

ophion that the Fourteenth Amendment authorizes and enables Congress to establish universal suffrage by law. We think that it does not. There never has been a time when Mr. Sunner could bridg a majority of the Sanate to Amaway of thinking on this question. Concerning, however, that he is right and that the others are wrong, how can he oppious a measure which, if adopted, will secumplish the same result in a more malifactory way? We should not like toutstand in the shoes of any Senator who millows his own pride of opinion to block up the way to so important a priorm.

Mr. Drake, of Missouri, another impare scaling grains, wanted to amond the amendment so as to enable negroes to hold effice as well as vote. There is pophing in the constitution which prevents them from holding office now. On the contrary, it is perfectly certain that if a majority of votes are cast for a colored way, for any effect under the United Saits, he must be allowed to extrehe and culpy it. And if elected to a State office, he capted be prevented from hiding it by virtue of any provision in the Mattend Constitution.

office, he capaco be preveated from hidding it by viewe of any provision in the National Constitution. We say that Mr. Drake's amendenent is impracticable and nawhe, becape it adopted it will fall to "be restified by the requisite number of States, and thus the good, which might otherwise be accomplished, with might otherwise be accomplished, with the weight down and lea. "One whreat a time," Mr. Senastor The State of Illinois, we beliave, is prepared to ratify an amendment exactivating universal office-holding. The time will come when Illinois will account the constitution of the constitution and the population of the outside wards, such as the Fourth, Seyenth, Eighth, Ninth and Thirteenth. The change gives an additional ward to the South Side, two to the West Side and one to the North, but if has not yet come. To hope Mr. Drake's amendment would be lightly littling two bires with one at a read to the state of the National Constitution. We say that Mr Drate's amendment is impracticable accurately because if adopted it will fail to be ratified by the requisite number of States, and thus the good

are danger of the bil becoming a law.
